

## **La SIA: new contracts in July Approximately Euro 2 million in Real Estate and Sports**

**Rome, July 30, 2025** – La SIA S.p.A. ('**La SIA**' or the '**Company**'), company operating in the engineering & design sector and part of Mare Group, announces that it has awarded three new contracts in the real estate and sports sectors over the last month.

After joining the Mare Group, La SIA continues to award contracts and diversify its business in line with its Industrial Plan and thanks to commercial synergies with Mare Group.

The three contracts, worth a total of approximately €3.5 million, were awarded to a Temporary Consortium of companies including other partners. The signing of the three contracts is expected in September 2025.

La SIA acts as the lead partner and its share of the contracts is worth a total of approximately €2 million, of which €200,000 is expected to be paid by 2025.

Specifically, La SIA has been awarded:

- Construction management and safety coordination for the construction of a roof for an additional stadium for the 2026 Mediterranean Games.
- Framework agreement for the provision of construction management and safety coordination services during the execution, testing and design verification phases for the construction of new facilities for social inclusion playgrounds and the enhancement of suburbs.
- The framework agreement for final design, construction management and safety coordination during the execution phase for the redevelopment of public buildings in the Region of Puglia.

**Maurizio Ciardi**, CEO and Chairman of La SIA S.p.A., said: *"We are delighted to see how quickly the merger with the Mare Group is yielding results, from both a business and financial perspective."*

**The Company**

La SIA S.p.A. is an innovative SME, part of Mare Group, operating in the engineering and design sector, specialising in the design of infrastructure in the fields of telecommunications, civil construction, mobility infrastructure and energy plants, using cutting-edge technologies and specific know-how. La SIA is among the first movers in the introduction of BIM (Building Information Modelling) methodology, also used for safety, predictive maintenance and the protection of the country's artistic and historical heritage. The company, established in 2004 and acquired by Mare Group in 2025, operates in the architectural, structural and plant design of complex buildings, in the management and design of infrastructure related to energy, road and rail networks, in the design of medium-voltage and photovoltaic systems, and in the design and construction of fibre optic and mobile radio networks.
